_____ Public Library Adds "The USA" to Reference Collection

(City, State – Month Day, Year) – The _____ Public Library is pleased to announce that it has recently added *AtoZ the USA* to its online reference offerings. This new library database is an unmatched resource for information about the people, culture, geography, government, history, indigenous peoples, food, and symbols of the US states and the United States itself.

"Information about the USA and US states is very popular at the library, but in the past, we've never been able to offer such a comprehensive one-stop resource that answers so many questions. It's the equivalent of 20 large reference books, so we're very excited to offer it to our patrons," says _____, reference librarian at _____ Public Library.

According to the library, anyone can access *AtoZ the USA* using the library's computers, or from anywhere in the world from the library's portal at www._____.org with their library card. The database covers 110 topics for each state, territory, and the District of Columbia, and 118 topics for the USA as a country.

ABC the USA was designed for students, educators, and anyone who wants to develop an in-depth understanding of the USA.

Offering *AtoZ the USA*, a product of *World Trade Press, the Global Knowledge Company*, is an example of the _____ Public Library's mission to increase its coverage of topics that are of interest to its diverse population of patrons young and old.
